ABOUT

IEEE RGIPT

Founded in 2021, **IEEE RGIPT Student Branch** at **Rajiv Gandhi Institute of Petroleum Technology** is a professional student run Engineering Organization. We devote our time and energy towards bringing hands-on practical experiences to engineering students at RGIPT, as well as create opportunities for students to interact with industry professionals.

IEEE RGIPT Student Branch is a young body of enthusiastic workforce which strives to learn and contribute towards technological innovations.

IEEE RGIPT Student Branch is awarded as the **Best Emerging Student Branch Award** and **Most Active Student Branch Award** by IEEE Uttar Pradesh Section for the Year 2025.

Kode Kurrent Season One highlights two key events :

24-Hour Hackathon

A dynamic coding marathon where diverse participants ideate, design, and develop real-world problem solutions collaboratively.

Date : 22nd - 23rd March, 2025

Member count : 3 to 4 per team

Fees : Refer to Guidelines

Venue : RGIPT Jais, Amethi

Mode : Round 1 - Online
Round 2 - Offline

VLSI Workshop

Dive into VLSI technology with a 2-day workshop on semiconductor design and fabrication for enthusiasts.

Date : 22nd - 23rd March, 2025

Fees : Free of cost

Venue : Vivekanand Sabhaghar
RGIPT Jais, Amethi

Mode : Offline

Problem Solving

REGISTRATION GUIDELINES

12
MARCH

Phase 1: Registration

Form a team of 3-4 members (all team members must belong to the same college). Select a problem statement from the provided options. Ensure all information submitted during registration is accurate.

[Registration Link Phase 1](#)

16
MARCH

Phase 1: Online Assessment (OA)

Teams must participate in an Online Assessment to evaluate their understanding of the selected problem statement. The OA link will be sent via email to the registered teams. The OA slot will remain open for 24 hours to accommodate any technical issues.

17
MARCH

Phase 1: Selection Announcement

Shortlisted teams will be informed via email. These teams can continue developing real-world solutions for their selected problem statements.

17
MARCH

Phase 2: Registration

Shortlisted teams for Phase 2 must re-register. The registration fee is Rs. 600 per team for **RGIPT** students and Rs. 1200 per team for **Non-RGIPT** students (i.e Rs. 600 for registration + Rs. 600 for accommodation and food). **Deadline for same is 19th March 2025.**

22
MARCH

Phase 2: Offline Hackathon Finals

Teams will refine their solutions with guidance from industry and academic mentors.

PROBLEM STATEMENTS

Rabbitt.AI

Startup Info : [Website](#) | [LinkedIn](#)
Problem Statement ID : KodeX101
Problem Statement Title : AI Model for Handwritten Math Expression Recognition and Solving
Intern Opportunities Eligibility : Top 3 Teams
Intern Type : Summer 2 Months Onsite Stipend based Intern at New Delhi, India.

[Problem Statement Link](#)

Startup Info : [Website](#) | [LinkedIn](#) | [PlayStore](#)
Problem Statement ID : KodeX102
Problem Statement Title : AI Web3 Trading Bot Challenge
Intern Opportunities Eligibility : Top 3 Teams
Intern Type : Summer 3 Months Remote Stipend based Internship.

HACKATHON TIMELINE

FREQUENTLY ASKED QUESTIONS

1. What is Kode Kurrent?

-> Kode Kurrent is a 24-hour Software hackathon VLSI Workshop designed to bring together developers, designers, and innovators to build creative solutions to real-world problems.

2. Who can participate?

-> The hackathon is open to all B.Tech/B.Eng pursuing students with an interest in coding, problem-solving, and technology.

3. Do I need to be an expert programmer to participate?

-> No ! Marathon starts with small walks. The hackathon welcomes participants of all skill levels, from beginners to experts, from first years to final years. If you are tech enthusiast you are welcomed with open arms.

4. What is the team size?

-> Teams can have a minimum of 3 and a maximum of 4 members.

5. Can I participate alone?

-> No, individual participation is not allowed. You must form a team with at least 3 member.

6. What should I bring to the hackathon?

-> Bring your laptop, chargers, extension boards and any necessary peripherals. For verification purpose you must carry an Institute issued ID Card and Government Issued Aadhar Card/ Pan Card or any other relevant document.

7. Can we start working on our project before the event?

-> Yes, you can start any time. But ensure you plan your solution perfectly.

8. What technologies can we use?

-> You are free to use any programming languages, frameworks, or tools, as long as your project aligns with the hackathon rules. Also check respective problem statement for further instructions.

9. Are pre-built templates or open-source libraries allowed?

-> Yes, but you must disclose and credit any third-party code used.

FREQUENTLY ASKED QUESTIONS

10. How will the projects be judged?

-> Projects will be evaluated based on:

- Innovation & Creativity
- Technical Implementation
- Impact & Relevance
- Presentation & Demo

Also Note that the decision by Judges and Mentors will remain final. The organizers have the right to disqualify any team that violates the standard disciplinary rules.

11. Will there be mentorship available?

-> Yes, industry and academic experts and mentors will be available during the hackathon to guide participants.

12. What happens if I need help during the event?

-> A dedicated support team and mentors will be available to assist you. You can reach out via the help desk or designated communication channels.

13. Is it compulsory to have one female member in a team?

-> No, it is not compulsory. But as we celebrate the women in tech initiative, female participation is encouraged.

14. Where can I find updates about the event?

-> Follow our official social media pages for real-time updates.
